WORK EXPERIENCE

AllPeople, San Luis Obispo Ca. — *Web Development Intern*

Jan 2022 - Sept 2022

- Enhanced design of the website's homepage and implemented filtering capabilities leveraging JavaScript, CSS and HTML.
- Redesigned and rewrote FAQ page to be more intuitive, improving online shopping experience.

Department of CS, Cornell College. — *Student Worker*

Sept 2022 - May 2023

- Successfully deployed VM images (VMWare) on physical servers and leveraged troubleshooting skills to remediate issues.

Target, Thornton Co. — *Produce Worker*

May 2017 - Present

- Trained 20+ employees in multiple settings to ensure efficiency and consistent performance.

PROJECTS

Personal Portfolio webpage

- Developed using HTML, CSS and JavaScript. Presenting my past projects along with web development skills, in a simple and aesthetically pleasing layout.

C4 Blog/Brochure website

- Designed a website using Bootstrap, HTML, JavaScript, Sass, and CSS that is being used by the computer science club at Cornell College which enables the CS community to demonstrate their experience and skills.

Course Registration

- Created an ER diagram and schema written in 3rd normal form for a student class registration system at Cornell College. Implemented and written in SQL and DBbrowser.

SERVICE EXPERIENCE

Student Athletic Advisory Council, Mt. Vernon IA. — *Committee Member*
